

TABLES AND BASES

Plymold

More than you expect. Exactly what you need.

No matter what kind of decor you have in mind, we have a great table to fit.

The perfect restaurant table makes a powerful first impression. It is, after all, one of the first furnishings customers notice. And they'll definitely notice if they're seated at a table that isn't sturdy or attractive. Tables are a foundation of the front-of-the-house.

That's why we only create and offer the best tables you can buy. Whether your design requires the durability and versatility of laminate, the warmth and tradition of solid wood, or a sophisticated solid surface, your smartest choice is Plymold.

We make great-looking tables that are easy to care for and hard to hurt.

We've been building front-of-the-house furnishings for four decades and we've learned how to build smart while never sacrificing quality. Our tables are constructed with care and precision by some of the most skilled craftspeople in the industry.

We start with first-rate materials—we source the best possible laminate and choose the highest quality lumber. Then every step of our building process is checked and rechecked to assure our strict quality standards. Our tables are thoroughly tested and each one is built to withstand spills, scrapes and other daily wear.

Plymold. More than you expect, exactly what you need.

We're well known for creating and building contour seating. But over the years we've kept a close eye on the marketplace and that's why we've expanded and redesigned our line of furnishings to include upholstered seating, wood booths, outdoor furnishings, custom millwork, as well as tables and both wood and metal chairs. We can create anything you need to bring your vision to life.

Our dedication to designing and building the very best includes selecting only the best materials; using exacting production standards; insisting on consistent quality control; performing thorough, continuous testing; and achieving an on-time delivery record of 99+%.

Have something else in mind? Let us build it for you.

Discover what kind of tables Plymold has to offer. We're sure you'll find what you're looking for.

But if you'd like us to collaborate on your design and build a table unlike any other—whether that's using exotic woods or an eco-driven design—please give us the chance to say, "Yes." We can custom build the table you have in mind.

Now turn the page and see the kinds of tables Plymold has in store for you.

Laminate tops

So beautiful you might be tempted to hang them on the wall. So durable you might never wear them out.

Laminate is one of the most durable surfaces you can buy. It allows us to create tables that are incredibly tough and amazingly wear-resistant. Laminate surfaces are also non-porous, so they're very easy to clean and maintain.

Laminate is also a versatile, stylish material that provides nearly limitless design possibilities. You can get laminates that look like wood or metal. You can use colors and patterns to create new, unusual designs. You can print graphics directly into the laminate to reproduce any kind of logo or design and we can build custom decorative tops that feature unique, multiple inlays.

We offer a wide range of laminate options and a variety of edge styles, including laminate, vinyl, aluminum, wood, and our own Dur-A-Edge[®] that stands up to the most extreme conditions. The only problem you'll face is which design and edge combination to choose.

Edge options for Plymold laminate tables.

Dur-A-Edge[®]

- Best possible seal, safety and long-lasting durability

Self edge

- Exact match between the edge and the laminate table top

Flat aluminum edge/Ribbed aluminum edge

- Great retro 50's look

Vinyl edge

- Stylish, versatile look

Wood edge

- The warmth of wood in 39 different profiles

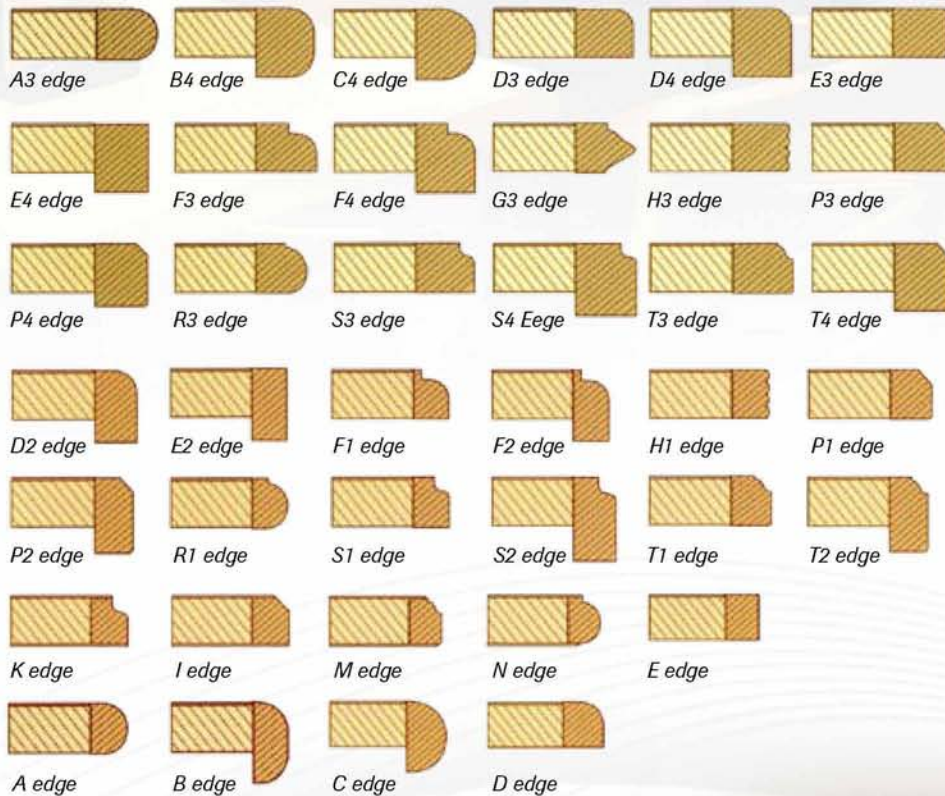

Custom decorative multiple laminate inlays

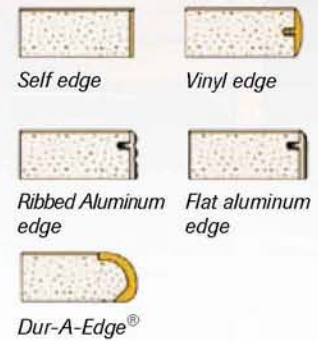

Custom inlay shown with Dur-A-Edge[®]

Laminate top non-wood edge options:

The innovative Dur-A-Edge® process.

We developed the Dur-A-Edge® process back in 1988 to provide our customers with longer life for their table edges. Over the years, we have extended its use to include seating and booths as well as receptacles and laminate cabinetry. Dur-A-Edge® provides excellent protection against the damage that detracts from the appearance of your store.

Dur-A-Edge® is made from polyurethane and creates a seamless bonded edge:

- Impact resistant
- No chipping or peeling
- No unsanitary, hard-to-clean build up between the edge and laminate surface

Dur-A-Edge® colors go all the way through, so the appearance and color of your edging will look great for years. Its amazing durability means it stands up to repeated use, year after year.

Solid Wood Tops

Choose the warmth of real wood to create a rich, traditional look.

- **Plank Tops**
 - Random widths of solid wood planks laid edge-to-edge
 - Available in continuous lengths
 - 1 ¼" and 1 ¾" thickness

 - Exclusive Plymold drop leaf hinge mechanism holds leaf open and closed
- **Corner Table design**
 - We offer pre-designed options and we can build whatever table fits best in your corner
- **Durable catalyzed topcoat for maximum beauty and longer wear**

Custom Stain Matching Program

We've developed a quick and easy way to make sure you get the best possible stain match. Call our sales team at 800-759-6653. They'll walk you through the process and get you a sample within five working days. Once we have the match, the formula is in our system for future orders. We'll even provide you with the formula so you can get an exact match from your local Sherwin Williams® store.

Whether you choose the stylish design of our butcher block table or the simple elegance of our plank wood tops, a Plymold wood top is your best choice. Both are available in oak or maple and kiln dried to exacting Plymold specifications.

Solid Wood Tops Edge Profiles:

A5 bullnose edge

D5 rounded edge

E5 straight edge

P5 beveled edge

S5 ogee edge

Random Length Oak Butcher Block

Random Length Maple Butcher Block

Maple Plank Continuous

Oak Plank Continuous

Solid Surface Tops

How can a table this tough be so beautiful?

100% acrylic solid surface provides beauty that endures. You can choose patterns inspired by nature or stunning combinations of organic and man-made designs. We can even provide a slight translucency that builds depth into the pattern. Create table tops. Beverage counter tops. Condiment stations. Bar tops. Even integral back splashes. Each job is customized to your exact needs, so prices vary based on color and specific application. Talk with your Plymold representative for a custom quote.

Color and pattern go all the way through.

- Precisely engineered to resist fading and the elements
- Nonporous so stains will not seep through the surface
- Surface stains are easily wiped or buffed away

Bases

Our bases are available in your choice of stain, a wide variety of powdercoat paint options and chrome on several models. See the Plymold Color Selection Guide for a complete list of available color options.
